

Swisstex Machinery Inc. participated the first time at Shanghaitex, which was held from 1st to the 4th June '07, with a booth shared with Reisky Máquinas Ltda. Brazil.

More than 1'500 exhibitors from 21 countries presented their latest development and provided a clear overview of the technologies and service available to the textile industry. According to the organizer, 108'000 visitors attended the exhibition.

We could introduce our CPB bleaching/dyeing concept, wastewater treatment plants, complete dye house solutions for knitted fabrics etc. to many visitors on our booth mainly from China, India, Pakistan, Bangladesh, and Thailand.

We express our thanks to all the visitors, which came to our booth during the exhibition and would be glad to see each other again at ITMA 2007 in Munich.
